View from the President

Fellow Alumni: As I write this letter the end of summer is near. Your board has been busy planning for this fall's activities focusing primarily on Alumni/Homecoming Day and our November annual business luncheon.

Before getting into those topics, let me say that from an administrative and program perspective, your organization is healthy and operating smoothly. The only future administrative change that remains from an implementation standpoint is our web site and we're holding off on that change until after we determine our new host for the site. That change should occur at the end of this year. The web site is updated more frequently so check it for current DIAA news. *The Defense Intelligence Forums (DIFs)* have been well attended and attendees enjoy the seminar format and venue. We've also been involved in discussions with and have cooperative agreements with *National Defense Intelligence College Foundation (NDCIF)* and the *Foreign Area Officers Association (FAOA)* to open our respective, organizationally sponsored events to each other's members at membership rates. The *DIFs* and the *Defense Intelligence Journal* (for those of you who obtained the most recent edition) are a manifestation of that cooperation.

Alumni/Homecoming Day on 2 Oct will have a very extensive and varied agenda and program. Again, Laurie Kelly has put together a classified program that has a "WOW" factor similar to last year's event. You should have received a flyer for the event before receiving this newsletter. I hope the event is well attended and that we exceed the number of members who attended our March luncheon at Mount Vernon Inn. The quality of the program merits your attendance, support and interest. DIA has certainly expended a great deal of time, effort and resources on a fantastic and quality program for the alumni.

Our 13 November business meeting and luncheon will be a special one for several reasons. First, thanks to the efforts of Gene Tighe, we will have Gen. Michael Hayden, USAF, Director, Central Intelligence (DCI) as the keynote speaker. It will be an auspicious event, and a special milestone in the history of DIAA to have the Director of CIA address our membership. We owe a special thanks to Gene for spearheading this effort and board member Bill Wetzel for getting the Army-Navy Country Club as the venue. I'm expecting this luncheon to have the largest turnout ever for a DIAA event.

Lastly, I announced to the board that I will be stepping down as your President at the end of the year. The November luncheon meeting will be my last as your President. I assumed some new

responsibilities as a Director for a non-profit, charitable organization and that work will require some significant time and effort. If my failing memory serves me correctly, I have served as DIAA President for five years and some of those years offered challenges and obstacles that we've managed to overcome through the cooperative efforts of past and current board and regular members. I thank all of you for your support. Now is a good time for me to step down and for someone else to assume the reins of leadership. I will continue on the board for the time being. I have been honored to serve as your President, enjoyed those five years and look forward to seeing all of you at future DIAA events.

Thanks again to all.

Best regards and wishes for the future,
George Souza, DIAA President

and Sunni. He explained that of the 1.3 billion followers of Islam in the world, only 300 million are Arabs. Islamists have widely divergent interpretations of the Koran ranging from “Quietists” who believe that God can take care of Himself and are generally reluctant to become involved in politics, to “Activists” who participate in politics and Command the Faithful, to Jihadists – a small number of extremists who use violence to promote their goals. Mr. Keiswetter teaches courses in Islam and the Middle East at the National Defense Intelligence College. He is also an Adjunct Scholar at the Middle East Institute under whose auspices he has given more than 100 TV and radio interviews. Marine Corps Intelligence Activity (**MCIA**) is hosting a conference in September at Waterside Hotel in Norfolk to which Gen Pace, CJCS, has been invited.

Mr. Fred Harrison (**NortonNet**) discussed the ongoing initiative to create an "umbrella intelligence organization" that would address "issues of common concern" to the various intelligence-related organizations and associations. He also proposed several future possible initiatives: 1) a National Intelligence Journal – produced independently but available to all intelligence professionals to "get the message out;" 2) NSA and CIA funding college intelligence programs, such as Counter-Drug and Counter-Terrorism courses at the University of Maryland; and 3) creating a "Lobbying Association" to generate topics of interest and to promote the interests of intelligence professionals. NortonNet's database has approx 1500 names, and is good source for people looking for jobs.
